## From the Principal's Desk

Learners of 21st Century have very different needs as well as learning styles. The curricula of an educational institution should be structured in a way that will cater to all learning styles. Keeping in mind the needs of our students, we at BCS have planned a curriculum which is a balanced blend of curricular and co-curricular activities. The previous issue of our newsletter was focused on academic achievements and here in this issue we are sharing with you the various activities undertaken to ensure the learning, understanding and various skills of Blossomians. I hope you will find it worth reading.

**Principal  
Amarjeet Kaur Naaz**
